

**IOWA ENGINEERING SOCIETY Central Iowa Chapter
SCHOLARSHIP INFORMATION**

The Iowa Engineering Society's Central Iowa Chapter offers a scholarship to graduating high school seniors interested in pursuing an engineering degree. IES Chapter scholarships are primarily directed to qualified students with the talent and commitment to succeed in an undergraduate engineering curriculum, for which the financial support and encouragement can make a difference.

The scholarships are awarded only to U.S. citizens who are residents of Iowa and who will be attending the College of Engineering at either Iowa State University or the University of Iowa.

The scholarships are awarded during the recipient's senior year in high school, but the money is not distributed until the recipient has satisfactorily completed the first semester at either Iowa State University or the University of Iowa's College of Engineering.

The amount of the scholarship is \$500 or \$1000. As Funds are available, additional scholarships may be awarded.

The Central Iowa Chapter also gives special scholarship consideration to children or grandchildren of Iowa Engineering Society, Central Iowa Chapter members.

Past Central Iowa Chapter scholarship award winners were:
